**TRANSPOTEC LOGITEC 2022 WILL BE HELD IN THE SPRING.
THE EVENT HAS BEEN MOVED TO 12-15 MAY, AT FIERA MILANO**

Milan, 12 January 2022 - Transpotec Logitec, the most important event in Italy for road transport and logistics, will be held at Fiera Milano **from 12 to 15 May 2022**. Given the current status of the pandemic and keeping in consideration the needs of the market, the event originally scheduled for the end of January has been postponed by a few months.

According to recent experiences, spring will allow the event to be held with greater peace of mind thus helping business and will allow the event activities to take place outdoor also ensuring better international mobility.

The project is confirmed and built around the major challenges that the sector is called to face in the near future: **energy transition and sustainability; digitisation and safety** and **training of new professionals**. A comprehensive proposal that combines new products, training and passion enriched, in particular, by previews and new vehicles that the many manufacturers who have confirmed their participation in the event will bring.

A unique opportunity where - thanks also to a dialogue with government officials - it will be possible to build the future of a sector that is a pillar for the economy of all countries and that, in Italy, handles transportation of more than 80% of the goods.

Transpotec Logitec will be at Fiera Milano **from Thursday 12 to Sunday 15 May 2022**.

Find all the information about the project online at www.transpotec.com
